0 490 980 1470 1960 2450 m

This product is displayed in GDA2020

Note:
This map shows the location of wetland protection areas which are defined under the Environmental Protection Regulation 2019. Within wetland protection areas, certain types of development involving high impact earthworks are made assessable under the Planning Regulation 2017.

The State Assessment and Referral Agency (SARA) is part of the State government department administering the Planning Act 2016. SARA is the assessment manager for assessable development involving high impact earthworks within wetland protection areas. The Department of the Environment, Tourism, Science and Innovation is a technical agency.

The policy outcome and assessment criteria for assessing these applications are described in the State Development Assessment Provisions (SDAP) State Code 9 : Great Barrier Reef Wetland Protection Areas.

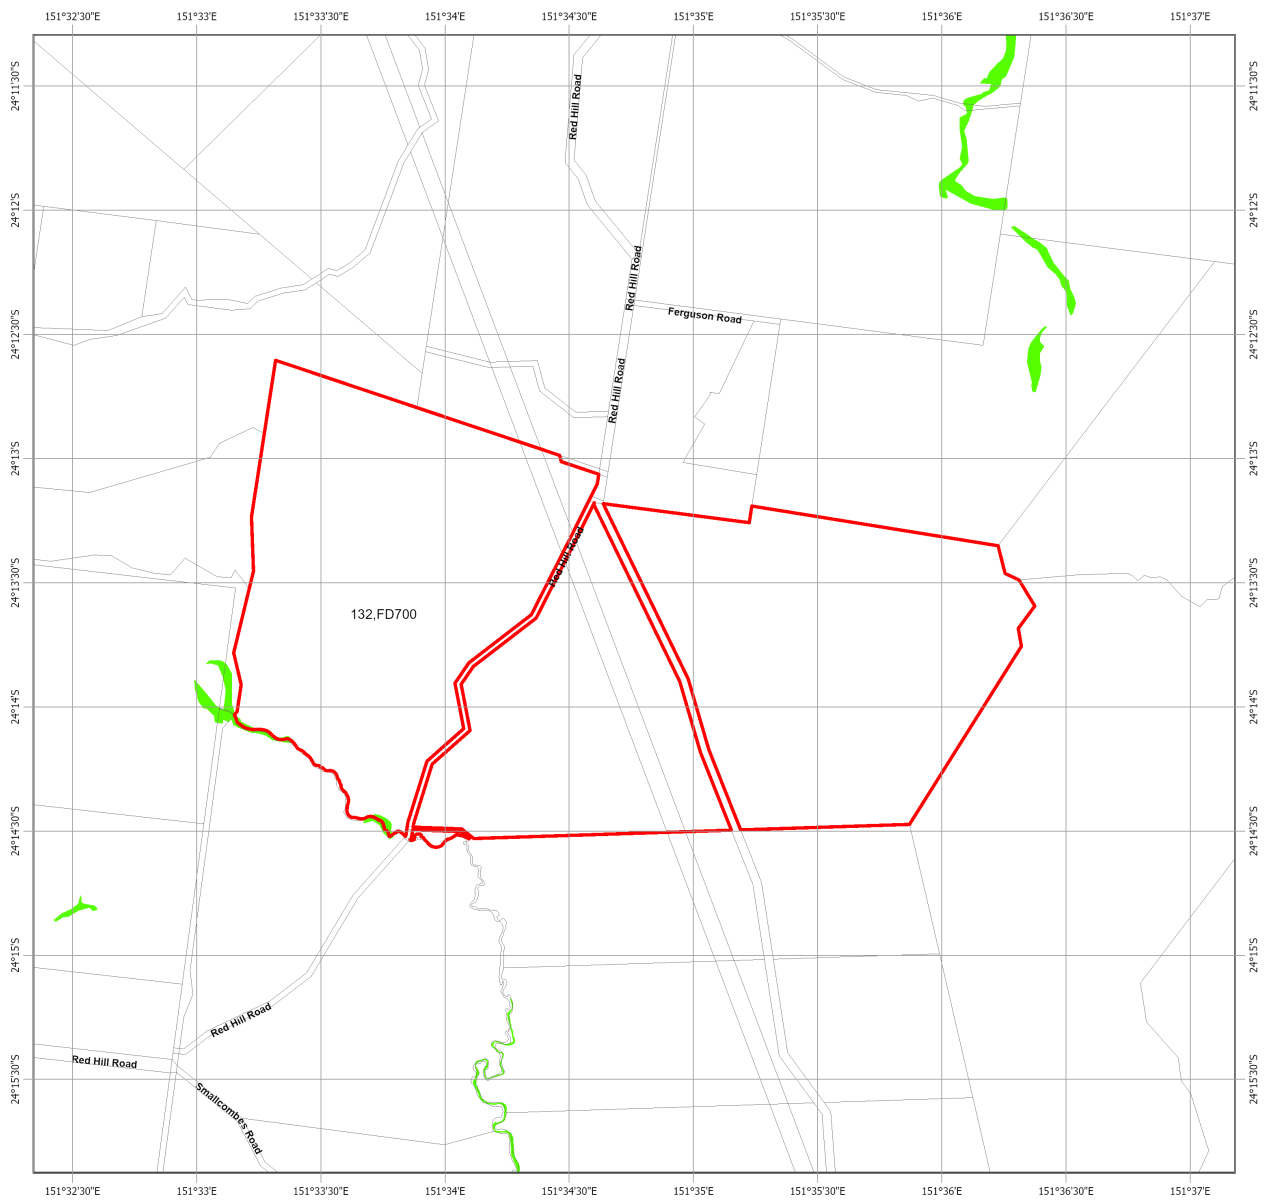

High impact earthworks carried out for electricity operating works or government supported transport infrastructure is accepted development if it complies with schedule 14 of the Planning Regulation 2017.

This map is produced at a scale relevant to the size of the lot on plan identified and should be printed at A4 size in portrait orientation. Consideration of the effects of mapped scale is necessary when interpreting data at a large scale.

For further information or assistance with interpretation of this product, please contact the Department of the Environment, Tourism, Science and Innovation, email planning.support@des.qld.gov.au.

Map of Queensland Wetland Environmental Values

Cadastral Boundary

High ecological values waters management intent

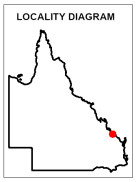

Wetlands assessed under section 7

GBR wetland of high ecological significance

Wetland of high ecological significance

Wetland of general ecological significance

Selected Lot and Plan

N

Note:
This map shows the location of wetlands on the Map of Queensland Wetland Environmental Values under the Environmental Protection (Wetland and Water Biodiversity) Policy 2019. The map also shows high ecological value waters management intent under Schedule 2 of the Environmental Protection (Water and Wetland Biodiversity) Policy 2019.

Wetlands are assessed for ecological significance using the environmental values for wetlands in section 7 of the Environmental Protection (Wetland and Water Biodiversity) Policy 2019. Wetlands are considered either High Ecological Significance (HES) or of General Ecological Significance (GES) for the purposes of the environmental values.

This map is produced at a scale relevant to the size of the lot on plan identified and should be printed at A4 size in portrait orientation. Consideration of the effects of mapped scale is necessary when interpreting data at a large scale.
